SHIP-SUBSIDY UP AGAIN.

Republicans Trying to Pay Old Debts to the Steamship Trust.

The Washington Star is authority for the statement that: "President Roosevelt told Representatives Humphrey, of Washington, and Minor, of Wisconsin, that he regarded the ship subsidy bill as the most important question before the country at the present time, next to the railroad rate bill and the construction of the Panama canal." How the president arrives at the conclusion that a subsidy, to be mostly paid to the steamship trust, is one of the most important pieces of legislation can only be surmised, for he did not give any reason, good or bad. But most of the Republican senators who voted for the bill are said to have done so to repay a debt the Republican party owes the steamship trust magnates for campaign funds advanced when the party needed the money to defeat the Democrats, who on principle are opposed to all subsidies to corporations, trusts or individuals. The Republican leaders were pledged when this large "yellow dog" fund was advanced that, in return, the leaders would pass the ship subsidy bill. Senator Hanna, who made the bargain, tried to carry out the terms, but so opposed were the people to subsidies that the bill was laid away in cold storage to await a more propitious opportunity. Can it be possible that President Roosevelt feels bound to help to carry out the corrupt bargain made by Hanna, as a partisan necessity? It is hardly to be expected. Five Republican senators voted against the bill when it passed the senate a week or two ago, and amongst them were Senators La Follette and Spooner. All the senators who are known or supposed to favor the corporations and those with tainted reputations voted for the bill, and it is disheartening to find President Roosevelt in such company. The Democratic members of the house of representatives are opposing the bill, but secretly hoping their political opponents will make the mistake of passing it, as they think such action will go a long way towards defeating for reelection those who vote for it. As the proposed law would be a grievous imposition of millions annually upon the taxpayers for the benefit of a few beneficiaries, it is rotten in principle and a dangerous precedent.

DISFIGURED WITH ECZEMA.

Brushed Scales from Face Like Powder—Under Physicians Grew Worse—Cuticura Works Wonders.

"I suffered with eczema six months. I had tried three doctors, but did not get any better. It was on my body and on my face so thick that I could hardly put a pin on me without touching eczema. My face was covered, my eyebrows came out, and then it got in my eye. I then went to another doctor. He asked me what I was taking for it, and I told him Cuticura. He said that was a very good thing, but that he thought that my face would be marked for life. But Cuticura did its work, and my face is now just as clear as it ever was. I told all my friends about my remarkable cure. I feel so thankful I want everybody far and wide to know what Cuticura can do. It is a sure cure for eczema. Mrs. Emma White, 611 Cherry Place, Camden, N. J., April 25, 1905."

REPUBLICAN DECEPTION.

An Adroit Game to Blind the Eyes of Roosevelt in the Railway Fight.

"In the multitude of counselors there is wisdom," is the way Solomon viewed the politics of his day, but in the Republican political programme the multitude of counselors seems to lead to confusion, as far as railroad rate legislation is concerned. There is no doubt that there is concerted action of the Republican leaders to blind the eyes of President Roosevelt and get him to commit himself to a compromise with the railroads, which would make all that has been accomplished worthless for relieving the people from unjust and unreasonable rates.

The fact is the president has been so harassed by those who pretend to be sincere friends of railroad rate regulation, and so tormented by others who are anxious to be re-elected to congress, that he is ready to approve any bill that appears to cover the legislation he has recommended. The bill that will pass the senate will leave out the best that is in the Hepburn bill and so qualify the other provisions that have merit that the legislation will be worthless as far as the people are concerned. But whatever the bill shall eventually contain, the Republican leaders will declare it is perfect and appeal to the voters to elect a Republican congress to back up the administration. A very adroit game, but the voters will see through it.

GET RID OF THE GAS

Dr. Williams' Pink Pills Strengthen the Stomach and Enable it to Do Its Work.

When the stomach is feeble the food lies in it undigested, decays and throws off poisonous gases that distend the walls of the stomach and cause interference with other organs, especially with the action of the heart and lungs. These gases have other ill effects. The nerves and the brain are disturbed and discomforts such as dizziness, hot flashes, sleeplessness, irritability and despondency originate from this source.

Experience shows that these troubles vanish just as soon as the stomach is made strong enough to digest the food. In other words, it needs a tonic that will rouse it to do the work of changing the food into nourishment.

Miss Minerva C. Ladd, of Ipswich, Mass., says: "I had a weak stomach from the time I was a little child. Whenever I took hearty food it would cause terrible faintness, and I would finally vomit what I had eaten. At times there would be the most intense pains through the upper part of my body. For days in succession, I would have to lie down most of the time. The distress was often so great that I could hardly bear it, and the frequent and violent belching spells were very disagreeable, too."

"My doctor's medicines gave me little relief and it was not until I tried Dr. Williams' Pink Pills that I found a cure. Within three weeks a decided improvement was noticeable. The belching spells were less frequent, the pains through my body were not so intense, my food was retained and after taking the pills for a few weeks longer I found that I was altogether free from the miseries I had so long suffered from."

Every dyspeptic should read "What to Eat and How to Eat." Write the Dr. Williams Medicine Co., Schenectady, N. Y., for a free copy.

OLD-WORLD ODDITIES.

Mathew Faulds, a weaver of Kilmarnock, Scotland, has been at his loom 80 years, and he is more than 90 years of age.

At the recent funeral of King Norodom of Cambodia the official mourners at the funeral gave voice to their grief through megaphones, with much effect.

William Reitz, of Dueseldorf, Germany, has lost the sight of his eye from injuries caused by a grain of rice which was thrown into it on the day he was married.

An Edgbaston (England) woman, who was summoned for annoying neighbors by blowing a whistle, said she had been hypnotized, and blew it to call attention to the fact.

Says a Tokyo newspaper: "On account of advanced age, Count Takayuki Sasaki (79) and Viscount Tomoyuki Hayashi (84) have obtained the privilege of carrying sticks in the imperial palace."

A Bristol (England) police sergeant the other day proved the serving of a summons on himself for allowing a chimney at Stoke Bishop to be on fire. He was witness and defendant, and was fined 2s. 6d.

A London druggist had to pay \$18, including cost of litigation, for selling water that was dirty and full of moldy growths to a man who had asked for distilled water. The druggist's defense was that he thought the man wanted the water for the purposes of photography.

OF POLITICAL IMPORT.

The Santo Domingo treaty which promised to involve us with foreign nations, has been laid on the shelf in the senate. The Democrats did it with their little caucuses.

More than half the Republican congressmen are feeling defeat at the next election and many declare they will not be candidates. They feel that the voters are determined on a new deal and a reform congress. Democrats are selecting their best men in the congressional districts as candidates and organizing for a sweeping victory.

The administration is making a bluff at the sugar trust, but the way the prosecution of the beef trust is proceeding most of us will be rather aged before there are any trust magnates in stripes. The price of sugar and beef will never be reasonable until the trusts are divorced from the railroads and the protection the tariff gives them is removed.

The German government has postponed the imposition of its new prohibitive tariff on agricultural products of the United States until June, 1907, and explains that this action is taken "to give America time to think." Our Republican protectionists state here, who refuse to change one jot or tittle of the tariff tax law, don't think they just stand pat.

The Republican organs fear ruin for the poor railroads in consequence of Ohio's two-cent fare law. These friends of the corporations need not worry, for a similar law has been in force in the state of New York for some years, and yet the New York Central and other railroads have managed to pay large dividends and their stocks are quoted far above par.

Senator Foraker charged in his speech to the senate on the railroad rate bill that there has been "no serious attempt" by the administration to enforce the existing law against railroad rebates and discriminations. That is true enough, although President Roosevelt poses as the only great and true friend of the people. The fact is that the Republican leaders, especially Senators Foraker, Aldrich and Elkins, are opposed to enforcing remedial legislation against their friends, the corporations, and there would be no chance of the present proposed legislation going through if the Democrats were not leading the fight.

FOOD HELPS

In Management of a R. R.

Speaking of food a railroad man says:

"My work puts me out in all kinds of weather, subject to irregular hours for meals and compelled to eat all kinds of food."

"For 7 years I was constantly troubled with indigestion, caused by eating heavy, fatty, starchy, greasy, poorly cooked food, such as are most accessible to men in my business. Generally wash meal or lunch was followed by distressing pains and burning sensations in my stomach, which destroyed my sleep and almost unfitted me for work. My brain was so muddy and foggy that it was hard for me to discharge my duties properly."

"This lasted till about a year ago, when my attention was called to Grape-Nuts food by a newspaper ad, and I concluded to try it. Since then I have used Grape-Nuts at nearly every meal and sometimes between meals. We railroad men have little chance to prepare our food in our cabooses and I find Grape-Nuts mighty handy, for it is ready cooked."

"To make a long story short, Grape-Nuts has made a new man of me. I have no more burning distress in my stomach, nor any other symptom of indigestion. I can digest anything so long as I eat Grape-Nuts, and my brain works as clearly and accurately as an engineer's watch, and my old nervous troubles have disappeared entirely." Name given by Postum Co., Battle Creek, Mich.
